WORKSHEET

Counterfeit products: risks to society

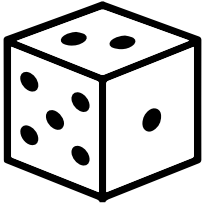

3rd and 4th Year of Primary School

Supported by:

The SafeorFAKE Toolkit is a project carried out by AIJU with the support of the European Union Intellectual Property Office (EUIPO). This worksheet only reflects the views of its author. The European Union Intellectual Property Office is not responsible for any use that may be made of the information contained in the worksheet.

From bear to bear and... it is my turn again

Age	8- 10 years old
Years	3 rd and 4 th Year of Primary School.
Time	45–60 minutes (depending on the participants and the development of the activity).
Objectives	<ul style="list-style-type: none">• Learn that counterfeit toys pose a threat to health, the environment and society.• Understand the negative consequences of counterfeit products for society.• Acquire strategies to detect potential counterfeit toys.
Materials	Board, cards with questions, die and counters. Or online using this link: https://view.genial.ly/62b2f341ff3af50013c23c62/interactive-content-juego-safe-or-fake-ud3
Carrying out the workshop	<p>In order to enhance the concepts seen in Unit 3, it is proposed that children from 8 to 10 years old play a board game similar to the “Goose” game.</p> <p>The game can be played online using the previous link or physically, printing the board, the cards with questions, the pieces and the die.</p> <p>The rules of the game are easy. Students can play individually or in teams. Each player or team will have a game turn, when they will roll the die and move forward to the corresponding square. On each square, they will be asked a question; if they get it right they stay on that square, but if they fail they have to go back to where they were previously.</p> <p>If they land on the bear square, they will move forward to the next bear square and play again.</p> <p>The player or team who reaches the final square first will be the winner.</p>

Game board

Choose a piece, roll the die and try to reach the final square first.
Good luck!

And remember, if you land on the bear square:
FROM BEAR TO BEAR, AND ROLL AGAIN!

The board game layout consists of a central square area and an outer track of 25 numbered squares. The central area contains the logo 'safe orfake?' with a bear icon and the text 'BOARD GAME SAFE OR FAKE' and 'COUNTERFEIT PRODUCTS: RISKS TO SOCIETY'. The outer track starts at a 'START' square with a trophy icon and ends at a 'GOAL' square with a downward arrow. Bear icons are placed on squares 4, 7, 11, 14, 16, 20, and 23. The track is numbered 1 through 25 in a clockwise direction starting from the top-left.

Cards with questions

¿What do you think counterfeit toys are?

1. Toys similar to the original ones, manufactured with authorisation from the creators.
2. Toys similar to the original ones, manufactured without authorisation from the creators.
